

D2-M4: non-normal systems — moment threshold is $\rho(A)^{-m}$ (optimal metric), not $\|A\|^{-m}$

shear c=3: $\rho = 1.50$, $\|A\| = 3.53$

shear c=6: $\rho = 1.50$, $\|A\| = 6.29$

rot+stretch: $\rho = 1.94$, $\|A\| = 2.38$
